Jorge Aguilar

Senior Operations & GTM Leader • Mobility Marketplaces • B2B SaaS • EMEA

Operations and GTM leader with five years scaling mobility marketplaces and B2B SaaS platforms across Germany and EMEA. Operates at the intersection of supply growth, partner development, and commercial execution — **building systems, not just running them**. Trilingual in Spanish (native), German (C1), and English (C1). Currently operating independently via Salas UG.

EXPERIENCE

Strategy & Operations Lead

Nexio Fleet GmbH • via Salas UG • Berlin • May 2025 – Present

- ▶ 60–70% reduction in manual reporting time via Python CSV-ingestion automation across 90–150 driver records
- ▶ Compliance reporting framework built covering 3 fleet operators, audit-ready against LABO requirements
- ▶ Product specs for Driver App and Fleet Dashboard translated directly from PBefG/LABO regulatory requirements into engineering-ready documentation
- ▶ €50,000 IBB GründungsBONUS Plus grant positioning supported through structured business case and market analysis
- ▶ Stack: Firebase (Auth, Firestore), Python, CSV pipelines, Uber and Bolt API data integration

FleetTech & Mobility Strategy Consultant

Salas UG (self-employed) • Berlin • Jul 2025 – Present

- ▶ Advisory to mobility and logistics ventures on fleet compliance design, operational systems, and GTM execution across DACH

Supply Operations Manager

Bliq • Berlin • Jul 2024 – Jun 2025

- ▶ 2.6× partner growth and 4.7× driver growth in 12 months via incentive redesign, onboarding overhaul, and structured partner activation
- ▶ Partner retention lifted from <50% to >80% through systematic churn analysis and account management framework rebuild
- ▶ €3M ARR contribution via cross-functional supply-demand pilot coordinated across Sales, Product, and Operations
- ▶ Pricing optimised through structured market research; product features localised via direct user research with German fleet operators
- ▶ Junior KAM associates trained; bilingual (DE/EN) partner negotiations led at senior stakeholder level

Operations Specialist

Bolt • Berlin • Jun 2023 – Jun 2024

- ▶ Driver activation rate doubled in 6 weeks via onboarding process redesign and structured activation funnel
- ▶ Cancellation rate materially reduced via 3PL accountability framework for Munich and wider South Germany region
- ▶ Monitoring dashboards built for driver performance and city operations KPIs using Amplitude and Looker
- ▶ Bonus and incentive programmes designed to balance supply and demand peaks across Southern Germany markets

Sustainability Operations Associate

Wolt • Berlin • Oct 2020 – Feb 2023

- ▶ ~30% logistics cost reduction contributed across courier operations via process optimisation and vendor renegotiation
- ▶ Gear recycling and circular-economy programme designed and led; courier onboarding and bike-check workflows standardised
- ▶ Joined as courier partner before transitioning to operations team — bottom-up operational understanding of the courier experience
