- Spanish — Native
- German — C1
- English — C1

Jorge Aguilar

STRATEGY & OPERATIONS · FLEET & MOBILITY · PRODUCT · COMPLIANCE · BERLIN

Operations and strategy professional with 5+ years building compliance systems, operational workflows, and data automation for fleet and mobility platforms in Germany. Translates regulatory requirements into scalable product and reporting architecture, drives cross-functional projects from concept to measurable outcome, and **uses AI and automation daily as core infrastructure — not experimentation**. Fluent in English, German (C1), and Spanish (native).

PROFESSIONAL EXPERIENCE

Strategy & Operations Lead

[Nexio Fleet GmbH](#) · Berlin · May 2025 – Present

- Designed Nexio Fleet's core compliance and operational systems during early-stage development — translated LABO and PBefG regulatory requirements into scalable product specs, data workflows, and audit-ready reporting for
- Built a compliance reporting framework for **~90–150 drivers across 3 fleet operators** covering driver activity, vehicle usage, shifts, working hours, breaks, mileage, and operational inconsistencies — aligned with LABO reporting requirements
- Reduced manual reporting effort by **~60–70%** through Python-based CSV ingestion, data transformation, and automation pipelines; contributed to Uber and Bolt operational data integration with Nexio's internal Firebase/Firestore architecture
- Translated regulatory and operational requirements into product specifications for the Driver App and Fleet Dashboard — bridging fleet operators, drivers, and the development team; led product testing across iOS, Android, and web (TestFlight, QA)
- Established structured feedback loops between fleet operations and product development — converted field observations and user feedback into prioritised improvements; supported IBB GründungsBONUS Plus positioning (**€50,000**) and Forschungszulage evaluation

Fleet & Operations Consultant

[Salas UG \(haftungsbeschränkt\)](#) · Berlin · Jul 2025 – Present

- Independent operations advisory for DACH mobility and fleet companies: compliance system design, KPI frameworks, performance reporting, process optimisation, and AI-powered workflow automation (Python, n8n, Claude)

Supply Operations Manager Germany

[Bliq](#) · Berlin · Jul 2024 – Jul 2025

- Led supply operations across Germany — owned fleet scheduling, partner onboarding, performance management, and multi-city operational execution; scaled from zero to **+2.6× partners and +4.7× drivers in 12 months**
- Owned budget and KPI management for all German markets — monthly performance reporting to leadership, root-cause analysis, and corrective action; cross-functional pilot generated **€3M ARR in 4 months**
- Led operations team (up to 6 direct reports) — onboarding, performance reviews, and development; improved partner retention from **<50% → >80%** through data-driven operational improvements (Amplitude, Looker, SQL)

EDUCATION

MSc Business Management

Digital Business Management

HWR Berlin (BPS) · 2025–present

M.A. Sustainable Development Management

HSRW · Grade 1.7 · 2021

DevOps & Cloud Computing

Data Analytics

Ironhack Berlin · 2023

B.Sc. International Business

La Salle Mexico · 2015

Erasmus Exchange · HSB Bremen

Grade 1.2 · 2014–16

CERTIFICATIONS

- ▶ Project Management · Coursera
- ▶ CSR & ESG · Udemy

TOOLS

- ▶ Python · SQL · n8n · Claude
- ▶ Firebase · Firestore · APIs
- ▶ Salesforce · Pipedrive
- ▶ Amplitude · Looker
- ▶ Docker · AWS · Azure
- ▶ iOS/TestFlight · Android QA

PROFESSIONAL EXPERIENCE (CONTINUED)

Operations Specialist

Bolt · Berlin · Jun 2023 – Jun 2024

- ▶ Managed fleet and supply operations across South Germany — vehicle deployment, 3PL coordination, rebalancing, and process optimisation; improved activation rate from **25% → 58% in 6 weeks** and reduced cancellations by **18%**
- ▶ Built performance dashboards (Amplitude, Looker) for daily operational decision-making — strong technical affinity for fleet management systems and service applications across multi-stakeholder environments

Sustainability Operations Associate

Wolt · Berlin · Oct 2020 – Feb 2023

- ▶ Led Germany's first national courier equipment programme with global HQ (Denmark) — coordinated across 6+ cities, delivered **~30% logistics cost reduction** through process standardisation and supplier management
- ▶ Started as a courier partner in Berlin before transitioning into operations leadership — unique ground-level perspective on platform dynamics that informed supply-side strategy and partner experience design

Operations & Commercial Manager

Carnicería Alcorde Alemán (Family Business) · Berlin · Mexico City · 2012 – 2017

- ▶ Managed day-to-day operations, supplier relationships, inventory, and commercial strategy for a family-owned specialty butcher business in Mexico City — hands-on foundation in operational ownership, cost management, and customer-facing commercial execution

ACADEMIC EDUCATION

MSc Business Management – Digital Business Management

Berlin Professional School, HWR Berlin · 2025–present (enrolled)

- ▶ Digital business models, platform strategy, transformation management, data-driven leadership, and entrepreneurship; Digital Business Safari, startup incubator access, Centre of Entrepreneurship

M.A. Sustainable Development Management

Rhine-Waal University (HSRW) · Kleve, Germany · 2019–2021 · Grade 1.7

- ▶ Thesis: “The Contribution of Steward-Owned Companies to the SDGs” — systems thinking, sustainability strategy, corporate governance, and impact measurement frameworks

B.Sc. International Business

La Salle University Mexico · Mexico City · 2011–2015

- ▶ Erasmus exchange programme, Hochschule Bremen (2014); Bremen Summer School (2016, grade 1.2); Berkeley TrepCamp entrepreneurship programme (2015)
